

FUNDAMENTALS OF RISK MANAGEMENT WORKSHOP

5th July 2017 9:00 am - 12:30pm

Registration from 8:30am

Perth—Forrest Centre Conference Facility

Upon completion of this course, participants will:

- Have an understanding of underpinning risk management principles and processes
- Be able to apply those principles and processes within the context and framework of their own organisation

Key Topics

- How risk management can assist organisations to achieve their objectives
- The types of risk exposure typically faced by an organisation
- AS/NZ ISO 31000:2009 and risk management principles, framework and process
- Applying the skills to identify, assess and treat risk and opportunity effectively
- How risk management should be organised and its relationship with boards, audit and other business functions
- Using risk information
- The importance of culture, communication and instilling the right behaviours in an effective risk management structure

Who should attend

- Risk Managers/Coordinators
- Those looking to increase their general level of knowledge in risk management
- Executives who have oversight responsibility for this area

Instructor

Mark Humphreys is a Partner at Riskwest, with over 18 years experience in risk management.

- Mark spent four years consulting to RiskCover, a division of the Insurance Commission of Western Australia (WA) in risk & Business Continuity Management. He has been 'Manager, Operational Risk' for the Victorian Managed Insurance Authority (VMIA) in Melbourne and 'Manager, Liability Risk Manager' for QBE European Operations based in the City of
