

Fundamentals of Risk Management

The objective of this workshop is to provide participants with a theoretical and practical understanding of the framework, principles and process which translates into effective Risk Management.

KEY TOPICS

- ✓ How risk management can assist organisations to achieve their objectives
- ✓ The types of risk exposure typically faced by an organisation
- ✓ Application of AS ISO 31000:2018 and risk management principles, framework and process
- ✓ Considerations in the practical application of AS ISO 31000:2018
- ✓ Applying the skills to identify, assess and treat risk and opportunity effectively
- ✓ How risk management should be organised and the relationship with boards, audit and other business functions
- ✓ Using risk information effectively
- ✓ The importance of culture, communication and instilling the right behaviours in an effective risk management structure
